

Electro vs. Storm

Once upon a time there were two sisters named Electro and Storm. Everything was good in life except that the two sisters fought a lot. Storm was older and more bossy; Electro was younger and shy.

Storm made Electro cry a lot, but somehow Electro always saw good in everyone, even her mean sister. So Electro decided to become a superhero. When they grew up, she became a superhero and made everyone happy by giving them electricity.

One day, Electro's alarm went off, and that meant that a village was in danger! When Electro heard why, she was devastated to see that Storm was taking everyone's electricity!

Electro didn't think she could fix this but then she remembered that love was the most powerful spell on earth so that's what she used.

"I'm sorry," said Storm. "I just wanted to try being bad but it didn't work the way I thought it would."

"It's OK, just don't do it again," said Electro and so they both made the world better by only using only NOVEC electricity!

You can make the world better too!
